Centre for Mathematical Sciences,
Wilberforce Road, Cambridge, CB3 0WB

Time: The next frontier in causal machine learning

Mihaela van der Schaar

Cambridge Centre for AI in Medicine

Abstract: Mihaela will talk about the work of her lab in developing cutting-edge machine learning (ML) methods to apply to real-world problems in medicine and healthcare in areas such as prostate, breast and skin cancers, cystic fibrosis, beta-blocker use in hypertension, coronary heart disease and COVID-19. The work encompasses a very large range of areas associated with ML including deep learning, decision trees, causal inference, time series data analysis and statistical machine learning. Mihaela will also explore the role that statistics plays in underpinning machine learning in order to make data-driven decisions.

Speaker: Mihaela van der Schaar is the John Humphrey Plummer professor of machine learning, artificial intelligence and medicine at the University of Cambridge and a fellow at the Alan Turing Institute in London. In addition to leading the van der Schaar Lab, Mihaela is founder and director of the Cambridge Centre for AI in Medicine (CCAIM) and delivered the Significance lecture at RSS conference in Harrogate in 2023. Mihaela is personally credited as inventor on 35 US patents, many of which are still frequently cited and adopted in standards. She has made over 45 contributions to international standards for which she received 3 ISO Awards. In 2019, a Nesta report determined that Mihaela was the most-cited female AI researcher in the UK.

Directions: The main entrance is reached from Clarkson Road by going along the footpath to the right of the Newton Institute, and turning left through the gatehouse towards the main building (Pavilion A), which has a glass front and a curved grassed roof. The main entrance is in the middle of the glass front. Coffee before the talk will be in the common room in Pavilion D, and the talk will be in Meeting Room 4 in Pavilion A. Free parking is available after 5pm on Clarkson and Wilberforce Roads.
